Board of Commissioners

1. Workshop 5:15 PM**1.A. Discussion of RFP for City owned property in the Downtown area**

Attachments: [Public Notice - Workshop - 1-27-25](#)

Mayor Maness called the Workshop to order at 5:15 PM

Mayor Maness stated that without objection Citizens Comment would be from 5:15 PM - 5:25 PM with adjournment at 6:00 PM for the Workshop.

Citizens Comments: None

City Manager Kenneth Martin explained he is seeking guidance and direction on what to do with the property owned by the City in the downtown area. Development Services Director Jennifer Hamblen explained the requirements of this area concerning the acreage guidelines.

Discussion was held.

Discussion was held on receiving comments from the residents through a survey.

Discussion was held.

Commissioner Giles stated a City Hall could be built on the back of this property or on other city property and lease the remaining property to have recurring revenue. Feels we need to explore all options, this is prime property on Mt. Juliet Road.

Mayor Maness stated he would like to see the RFP include a plan of a CBID for infrastructure and ongoing maintenance. What would be built (residential, retail, etc.), to include downtown walkability, proposal for what they would build for a City Hall, and a financial impact study/statement.

Mayor Maness asked if there were other items that the Commission would like to see included in the RFP.

Commissioner Milele stated she would like to see walkability, does not want to go in debt. This building is in bad need of repair so something has to be done at some point. She would like to see a new City Hall in the future. Feels like this is a good time to get a vision and master plan. If we wait on a developer(s) to develop the other parcels owned by the City then we have to consider the time frame and the revenue that could be generated. Curious how many cities comparable are in the land use market? And do we want to go in this direction. Likes the idea of a Master Plan and not spending millions on a new City Hall. Does not want to piece this together

Mayor Maness stated what is on the map is a proposal and we will be giving others the opportunity to make a proposal. He does like this first vision that was proposed. City Manager Kenny Martin stated he has only pitched this idea to top tier developers, but this is just an idea. If we go the RFP route he wants to see the vision of others.

Vice Mayor Trivett during this RFP we need to consider commercial and residential development, walkability, etc. Land and the cost of materials does not get any cheaper. We could remodel this building to bring up to current standards, sprinkling, proper ingress/egress. In favor of the RFP since this is forward thinking instead of reactive. An RFP gives us a base line.

Mayor Maness asked if anyone had more to add or delete from the RFP.

Commissioner Giles stated that when he was previously on the Commission he was always in favor of purchasing property. Wants the public to know that we will be considering all proposals.

City Manager Kenny Martin stated this was not a proposal just what could be proposed.

The Workshop adjourned at 6 PM

Mayor Manesss stated the Presentation would begin at 6:05 PM
with the Public Hearing beginning at 6:15 PM

9. Commissioner Reports & Comments

Commissioner Giles: Appreciates the Rotary Clubs in attendance tonight and the participation in the "Read to Succeed" program. This program was started by Audrey Hamblen Glen, which gave each first grader a book. They have currently given out 100,000 books.

Vice Mayor Trivett: Thanked everyone that attended from the Rotary Club. Nice to find out that Jennifer Hamblen's daughter started the program. MJPD is doing a great job with folks that enter the city that have warrants against them, drugs, etc. Thanked the Fire Department and EMS Division. Thanks to the Public Works Department.

Commissioner Milele: Working on her newsletter. Mt. Juliet Activity Center had the ribbon cutting last week which includes a Teen Center and location of the new Toddler Park.

10. City Manager's Report

Thanked everyone for attending the earlier workshop. Being kind and respectful to everyone goes a long way. The local businesses spend lots of money on their businesses and have to wait for the residents to patronize them. We try to find creative ways to help the businesses. Other cities are starting to mimic several of our projects including City Beautiful.
